NATIONAL SEMINAR

on

**"Role of Ayurveda
in**

**Basic Healthcare Services of Bharat"
December 16, 2017**

Venue:

**Multipurpose Hall
BPS Mahila Vishwavidyalaya**

Organised by:

**MSM Institute of Ayurveda
B.P.S. Mahila Vishwavidyalaya,
Khanpur Kalan-131305 Sonapat (Haryana)**

B.P.S. MAHILA VISHWAVIDYALAYA

Today's Bhagat Phool Singh Mahila Vishwavidyalaya is the dream come true of Bhagat Phool Singh Ji who established a Gurukul for girls at Khanpur Kalan in 1936. Notwithstanding the vehement opposition to Bhagat Phool Singhji's endeavour to educate girls, Gurukul Khanpur Kalan turned out to be a 'Mecca' for girls' education. The Government of Haryana, upgraded the erstwhile Gurukul to the status of a University exclusively for women in August 2006 and christened it as Bhagat Phool Singh Mahila Vishwavidyalaya. (hereafter referred as BPSMV), the first Women University of North India. Starting with the bare minimum requirements, BPSMV has undergone a complete transformation and imparting education from KG to PhD with about 6800 girls on his rolls.

M.S.M. INSTITUTE OF AYURVEDA

M.S.M. Institute of Ayurveda was established for conceiving the idea of nurturing ISM in the state of Haryana; the way back in 1973. Now it is a constituent college of BPSMV, a State University and recognized under section 2(f) and 12(b) of the UGC Act 1956. The Institute also has pharmacy unit to prepare various traditional and self formulated medicines for the hospital requirements. The pharmacy manufacturing is supported by sprawling herbarium garden where more than 200 species of herbs are grown. A 60 bedded hospital of the institute plays a pivotal role in imparting quality education to sharpen the clinical skills of upcoming doctors. The hospital is potent in dealing with different emergencies round the clock apart from having OPD and IPD facilities with multi-specialty approach.

ABOUT THE CONFERENCE

It is the first National conference that the Institute has envisioned to organise with an aim to explore the Role of Indian system of medicine in the basic healthcare services of India. Government of India is also stressing on the need of enhancing the role of Ayurveda by integrating it with conventional health care services of the country. National Health Mission (NHM) and National Ayush Mission (NAM) are recent events aimed at bridging the gap between the two health systems. Several steps have been outlined by the apex governing bodies like Ministry of Ayush & CCIM in regard to improvement in Quality standards of teaching, training & practice, which also aim at similar integration. This conference will provide a multidisciplinary platform to discuss & deliberate upon these issues. Most specifically the seminar is based on realizing the following objectives:

1. To interact, translate and disseminate the academic, therapeutic and research activities for better use in different fields of Ayurveda and clinical practices for its mainstreaming.
2. To explore ways and means for health promotion for prevention of diseases.
3. To explore dimensions to integrate AYUSH system in National Health Programmes.

Main theme of the conference is "Role of Ayurveda in basic healthcare services of Bharat"

SUB THEMES OF CONFERENCES :

Papers and poster presentations are invited for the conference relevant to the theme and covering the following sub themes:-
